

# ANNUAL REPORT 1999-2000

## A MESSAGE FROM THE CHAIR OF THE BOARD AND THE PRESIDENT

Mount Sinai Hospital has worked hard to build a reputation for innovation, excellence and patient care. That sterling reputation — coupled with the many recent enhancements we made to the hospital — are among the reasons demand for our services is increasing.

We recognize that access to care at Mount Sinai is a vital issue for us all. Our goals are to continue to improve efficiency and increase our capacity to serve patients and deliver the highest calibre of health care possible. This will entail ongoing physical expansion and renovations to the hospital, innovation through research discoveries, and collaboration with our academic health partners and the hospital community as a whole.

Meeting the above goals will remain a challenge in today's tight fiscal environment. The hospital can certainly expect to see many more changes in the next few years as we extend our programs and services into new fields of practice. Donations serve as the biggest impetus in bringing about this kind of change. While we celebrate the success and achievements of *The Best Medicine* campaign, we must also acknowledge that the need for continued fundraising has never been greater.

The buoyant economy over the past year helped create an ideal climate for philanthropy. Between the new rules around capital gains reduction on gifts of stock and the dynamic stock market, many of our donors gave more generously than ever before. We plan to continue to build on this momentum.

The campaign has allowed us to address many of the immediate needs of the hospital. Now the time has come to develop ways of securing the institution's long-term financial future. Over the course of the next few years, we hope to build a substantive endowment for research at Mount Sinai Hospital and the Samuel Lunenfeld Research Institute.

All of us look forward to continuing our efforts in support of Mount Sinai Hospital and its goal of providing the best patient care, teaching and research — in other words *The Best Medicine*.

## GIFTS OF LIFE INSURANCE POLICIES

One of the important means of making a donation to a registered charity is the donor's purchase of a life insurance policy in which the policy is assigned to the charity as owner and beneficiary.

The charity may issue an income tax receipt to the donor in the amount of the premium when the insurance company has notified the charity that it has received payment of the premium.

We wish to take this opportunity to express our profound thanks to the following donors who have purchased such policies with a total value of \$1,420,624. We received proceeds from the life insurance policy of Aube O. Weisman of \$72,917.85.
