Dr. Alison Shea, Assistant Professor, Dept. of Obstetrics & Gynaecology, McMaster University

1:15 **Q & A with Faculty**

1:45 **Concluding Remarks & Evaluation**  
Dan Farine

## Course Objectives

---

To review the management of common obstetrical problems in the context of medicolegal issues

To provide an opportunity for discussion and learning around developing strategies in and for preventing and managing poor outcomes in obstetrics.

To provide a forum to discuss medicolegal issues amongst obstetrical caregivers and lawyers involved in this area.

Dear Colleagues:

We are pleased to announce our second virtual **Obstetrical Malpractice: A Survival Guide for 2022** on **Saturday January 22, 2022**. This year's program will feature:

- More concise lectures with a Q & A box to ask all your questions
- All sessions will be recorded so that you will be able to review any lectures post conference
- Registration fees have been significantly reduced

This year as a "special treat", we will be including a bonus lecture: **"Chocolate As Never Told to You Before and Why We Should Eat It in Pregnancy"** given by Prof Gian Carlo DiRenzo. Chairman of Ob/Gyn Perugia Italy and Founder and President, the International Society on **Chocolate, Cocoa** and Medicine

This meeting is shorter than our previous ones of eight hours, as it would be mean to have such a long meeting on zoom. We decided to make up for it by adding this special keynote lecture (that could be perceived as the desert or final course). It will be sent to each of the registrants after the day is concluded.

Please plan to join us!

#### Dr. Dan Farine

Professor, Dept. of Obstetrics & Gynaecology, University of Toronto  
Mount Sinai Hospital

#### Dr. Sebastian Hobson

Assistant Professor, Dept. of Obstetrics & Gynaecology, University of Toronto  
Mount Sinai Hospital
