

Sunday January 30, 2022

7:55 Welcome and Introduction

Session ONE

8:00 LIVE SCAN – Normal and Targeted Anatomy Locations for Deep Infiltrating Endometriosis
Phyllis Glanc, Professor, Dept. of Medical Imaging, University of Toronto

8:20 The Case for Standardized Ultrasound Reporting: Why & Which?
Phyllis Glanc

8:40 The Clinical Value of Standardized Ultrasound Reporting
Sarah Ferguson, Professor, Dept. of Obstetrics & Department (Gynaecologic-Oncologist), University of Toronto

8:55 Q & A and Panel Discussion

9:35 10 Minute Break

Session TWO

9:20 The ABCs of O-RADS
Lori Strachowski, Clinical Professor, Dept. of Radiology and Biomedical Imaging, University of California, San Francisco, CA

10:00 Interactive Cases: The Basics with Tanya Chawla, Assistant Professor, Dept. of Medical Imaging, University of Toronto

10:20 15 Minute Break

Session THREE

10:35 Interactive Cases: Beyond the Basics with Kalesha Hack, Assistant Professor, Dept. of Medical Imaging, University of Toronto

11:00 Panel Discussion: Pearls & Pitfalls with Phyllis Glanc & Kalesha Hack
Panel: Tanya Chawla, Sarah Johnson, Ida Khalili and Noah Ditkofsky

11:40 How to Implement a New System of Reporting in your Facility
Kalesha Hack

12:25 Q & A and Panel Discussion

12:35 Concluding Remarks

The University of Toronto Depts. of Obstetrics & Gynaecology and Medical Imaging are pleased to introduce our *second* Virtual Sunday Series with this year's focus on **Women's Imaging: Advances in Gynaecologic Imaging & First Trimester Ultrasound**.

January WI 2022 will focus on ovarian masses and will do a deep dive into O-RADS Risk and Management Strategy. We are thrilled to have Dr. Lori Strachowski (San Francisco, CA) with us for this program. Dr. Strachowski is the Education Lead for the ACR O-RADS US Risk Stratification and Managements System. After participating in the January program, course participants will have option of attaining a certificate of ORADS Education (there is a small administrative fee and includes pre and post-tests). *Details will be forwarded to participants in the confirmation email once you are registered for the virtual series.*

February WI 2022 will focus on updates in uterine and acute gynecological pathology. We are pleased to have as guest speakers Dr. Thierry van den Bosch (Belgium) an international expert on adenomyosis and Dr. Mathew Leonardi (McMaster University) who will focus on deep infiltrating endometriosis including live scan. We are also thrilled to welcome returning guest faculty from recent years, Dr. Mindy Horrow (Philadelphia, PA) and Dr. Yvette Groszmann (Boston, MA). Both are well-known clinicians and educators and we look forward to their presentations.

March WI 2022 program will spend the full morning reviewing first trimester ultrasound focusing on anatomy, ectopic pregnancy and screening. We have amazing local presenters speaking and are also welcoming Dr. Ilan Timor and Dr. Peter Doubilet as guest faculty for this third and final segment of the Virtual Series.

Our goal is to present the very best of women's Imaging and first trimester ultrasound. So grab a coffee, some breakfast and your laptop and plan to join us for the 2022 Women's Imaging Virtual Sunday Series!

Sunday February 27, 2022

7:55 Welcome and Introduction

Session ONE

8:00 LIVE SCAN – Endometriosis
Mathew Leonardi, Assistant Professor, Dept. of Obstetrics & Gynaecology, McMaster University, Hamilton, ON

8:20 Endometriosis: What I Look For On Ultrasound
Mathew Leonardi

8:40 Adenomyosis
Thierry van den Bosch, Professor, Dept. of Obstetrics & Department UZ Leuven, Belgium

9:05 Ovarian Torsion
Mindy Horrow, Professor of Radiology, Sidney Kimmel Medical School, Thomas Jefferson University, Philadelphia, PA

9:25 Q & A and Panel Discussion

9:40 15 Minute Break

Session TWO

9:55 Endometrial Pathology
Thierry van den Bosch

10:20 Fallopian Tube
Mindy Horrow

10:45 3D & SHG & Tubal Contrast (including IUDs)
Yvette Groszmann, Diagnostic Ultrasound Associates, Brigham and Women's Hospital Lecturer in Obstetrics, Gynecology and Reproductive Medicine Harvard Medical School

11:10 Q & A and Panel Discussion

11:25 15 Minute Break

Session THREE

11:40 RLO Pain
Caitlin McGregor, Assistant Professor, Dept. of Medical Imaging, University of Toronto

12:05 Interactive Cases: "Strange & Crazy" with Yvette Groszmann

12 :30 Concluding Remarks

Sunday March 27, 2022

7:55 Welcome and Introduction

Session ONE

8:00 LIVE SCAN – Normal First Trimester
Vasi Stratulat, Sonographer, Sunnybrook Health Sciences Centre

8:20 The Brain & Beyond
Shiri Shinar, Associate Professor, Dept. of Obstetrics & Gynaecology, University of Toronto

8:40 Early Fetal Echocardiography
Varsha Thakur, Assistant Professor, Dept. of Medical Imaging, University of Toronto

9:00 The Fetal Abdomen
Tim Van Mieghem, Associate Professor, Dept. of Obstetrics & Gynaecology, University of Toronto

9:15 The Importance of NT Certification
Nimrah Abbasi, Assistant Professor, Dept. of Obstetrics & Gynaecology, University of Toronto

9:25 Q & A and Panel Discussion
9:45 15 Minute Break

Session TWO

10:00 Early First Trimester
Kalesha Hack, Assistant Professor, Dept. of Medical Imaging, University of Toronto

10:20 Ectopic Pregnancy
Peter Doubilet, Professor of Radiology, Harvard Medical School, Vice Chair of Radiology, Brigham and Women's Hospital, Boston, M

10:45 C-Section Niche Ectopic
Ilan E Timor, Professor, Dept. of Obstetrics & Gynecology, NYU Grossman School of Medicine, New York, NY

11:20 Q & A and Panel Discussion
11:40 10 Minute Break

Session THREE

11:50 Interactive Cases: First Trimester Ultrasound with Kalesha Hack & Tim Van Mieghem

12:20 Pre-Eclampsia Screening
Nan Okun, Professor, Dept. of Obstetrics & Gynaecology, University of Toronto

12:35 Genetic Screening
Maian Roifman, Assistant Professor, Dept. of Obstetrics & Gynaecology (Genetics), University of Toronto

12:45 Q & A and Panel Discussion
